

ANKIT KUMAR YADAV

Software Engineer — Backend Developer — GenAI Developer
+91-9142170116 — ankit.yadavdev01@gmail.com — [GitHub](#) — [LinkedIn](#)

Professional Summary

Backend-focused Software Engineer with internship experience building scalable backend systems using Node.js, Express.js, MongoDB, FastAPI and Docker. Built AI-powered applications using RAG, LangChain, LangGraph and ChromaDB. Passionate about backend engineering and Generative AI.

Experience

Backend Developer Intern

Mar 2026 – Jun 2026

Brinavv Technologies

- Developed the Attendance Management module for a production ERP platform.
- Designed and implemented 25+ REST APIs using Node.js, Express.js and MongoDB.
- Reduced API response time by nearly 40% through query optimization.
- Implemented MongoDB transactions for multi-document consistency.
- Worked with Controller → Service → Repository architecture and Git workflows.

Projects

InterviewAI – AI Mock Interview Platform

- Built an AI-powered interview platform using FastAPI, LangChain, LangGraph and ChromaDB.
- Implemented RAG pipeline with PDF parsing, chunking and semantic retrieval.
- Integrated Gemini API for resume-aware interview generation.
- Dockerized frontend and backend.

Real-Time Collaborative Code Editor

- Built a real-time collaborative code editor supporting multiple concurrent users using Socket.IO.
- Supported 10+ concurrent users in collaborative coding sessions
- Implemented room-based synchronization and Dockerized deployment.
- Engineered low-latency bidirectional communication with Socket.IO to synchronize code changes instantly across all connected participants.
- Designed a room-based architecture with participant tracking, join/leave event handling, and automatic synchronization for users joining an active session.

PlantX – Full-Stack E-Commerce Platform

Next.js, Node.js, Express.js, MongoDB, Razorpay, Shiprocket, Tailwind CSS

- Developed a full-stack e-commerce platform for plant shopping using Next.js, Express.js, and MongoDB.
- Implemented secure JWT-based authentication, role-based admin dashboard, product catalog, cart, wishlist, and order management.
- Integrated Razorpay for online payments and Shiprocket for automated shipping and order fulfillment.
- Designed 30+ scalable REST APIs and deployed the application with a responsive user interface.

Technical Skills

Languages: Java, Python, JavaScript

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, FastAPI, REST APIs, Socket.IO

AI: LangChain, LangGraph, RAG, ChromaDB, FAISS, HuggingFace Embeddings, Gemini API

Databases: MongoDB, MySQL, Redis, Mongoose

DevOps: Docker, Git, GitHub, Postman

Core CS: DBMS, OS, CN, OOP, DSA (150+ Problems)

Education

Rajasthan Technical University, Kota — Aug 2024 - July 2028

B.Tech in Information Technology

CGPA: 8.0 —
